## Anguila WINDER

Anguila, a leading specialist in the design and manufacture of fish tapes, has added its first universal reel to its catalogue: the Anguila Winder.

**It offers professional performance with the guarantee of quality and added value of an innovative brand leader.**

# What is it?

Anguila Winder is a  
**UNIVERSAL REEL**  
for all Anguila  
fish tapes

(Estiarc only guarantees operation with  
its own fish tapes)

## PROTECTION FOR YOUR TOOL, TIME FOR YOU.

### PROTECTION FOR THE FISH TAPE

It prolongs the useful life of your fish tape.

### MORE TIME FOR THE INSTALLER

It reduces the time it takes to reel your fish tapes in  
and out.

### FOR ALL HOUSEHOLD INSTALLATIONS

Electrical, telecommunications and fibre optic  
installations.

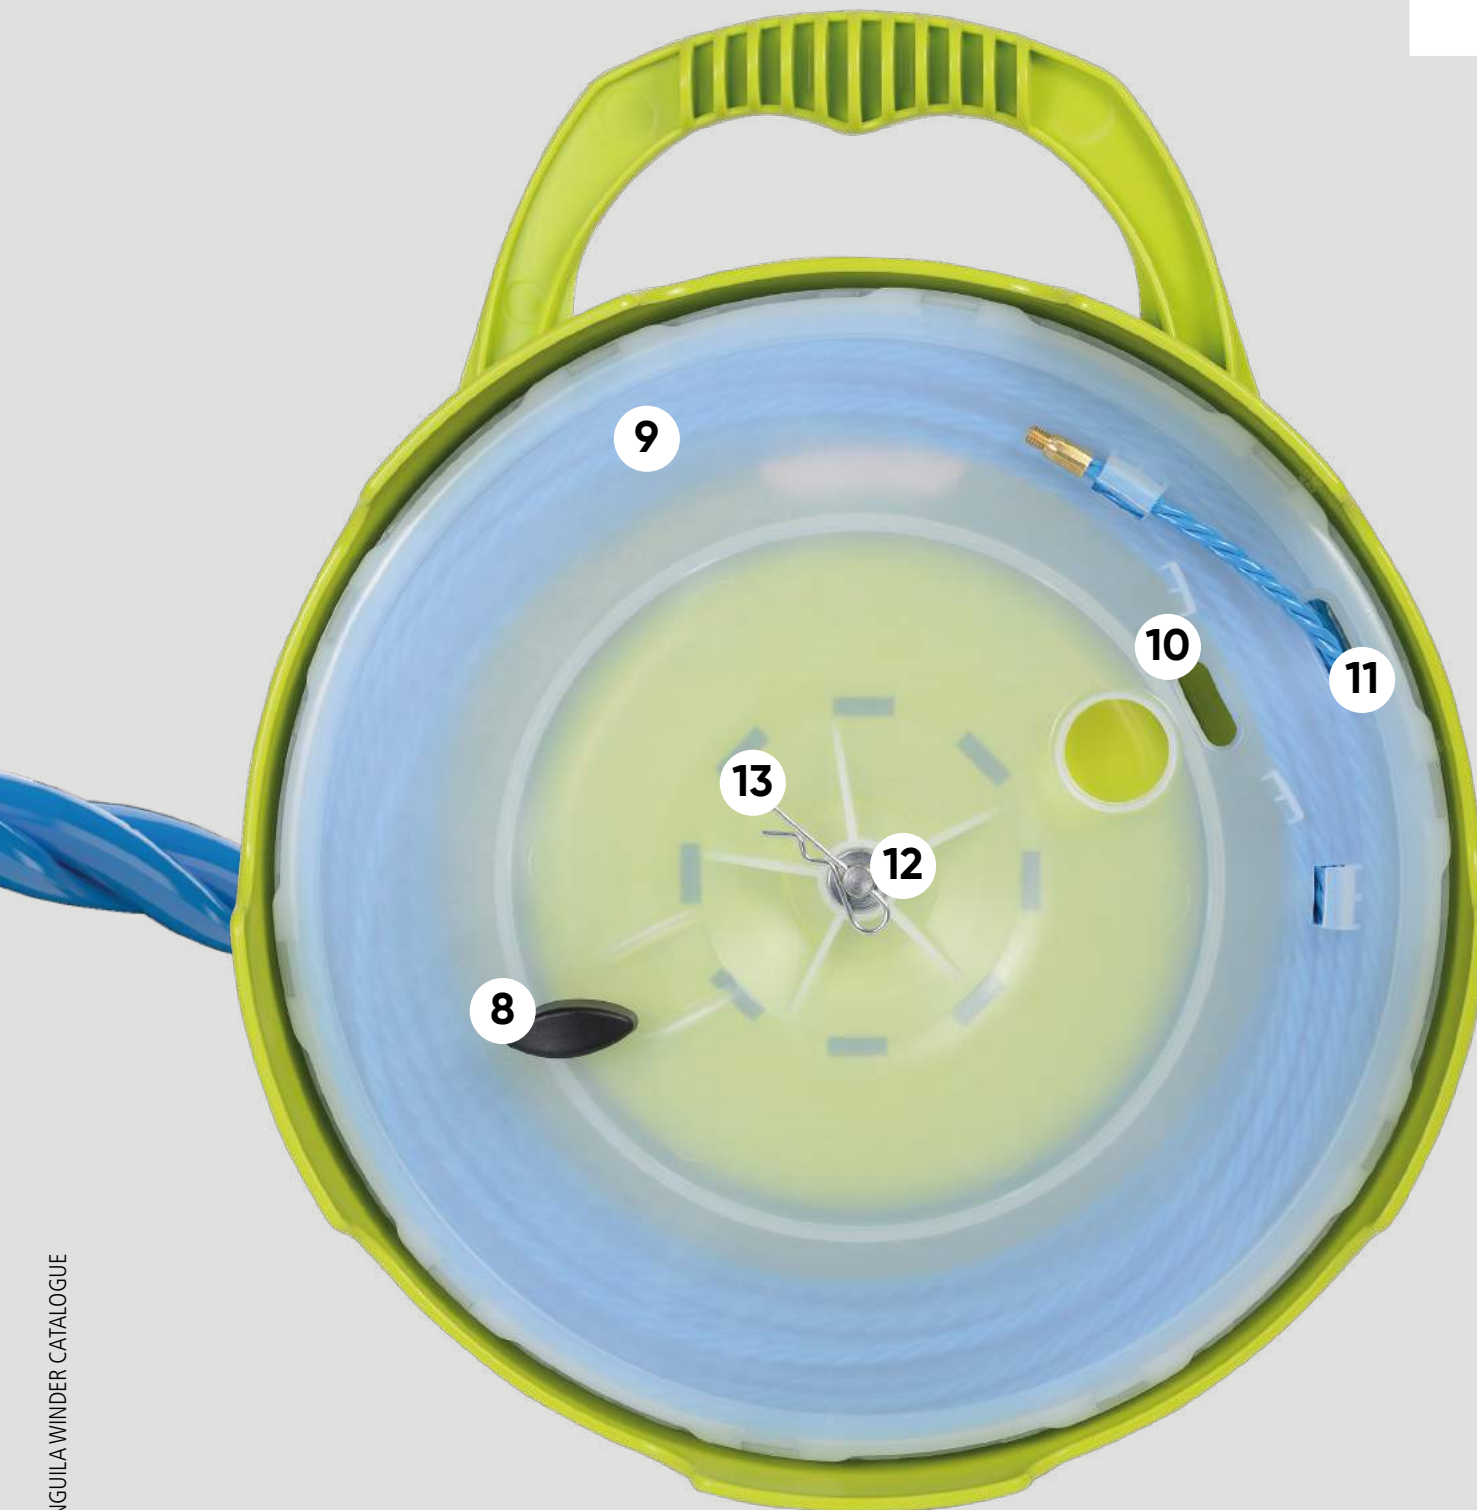

### FOR ALL ANGUILA FISH TAPES

Just the reel, for use with your own fish tapes, or  
supplied with Anguila Max fish tapes included.

- 1 FRONT DESCRIPTIVE LABEL**
  - The fish tape's material, diameter and length.
- 2 HANDLE**
  - Provides grip during use and facilitates transport.
- 3 OPENING**
  - Oversized to reduce friction during reeling.
- 4 HEAD SECURING SYSTEM**
  - Designed to be equally comfortable for right-handed and left-handed users.
- 5 CENTRAL COMPARTMENT**
  - With a lid to store your accessories.
- 6 MADE IN ABS**
  - Maximum impact resistance and extremely strong.
- 7 PATENTED**

# Features

## 8 TWO REELING SYSTEMS:

- Rotation handle.
- Rear opening.

## 9 TRANSLUCENT REAR MATERIAL

- You can see the fish tape inside.

## 10 OPENING FOR SOFT FISH TAPES

- Anguila Winder respects the natural form of the fish tape's material. To prevent any damage, this inner opening can be used for fish tapes in softer, more flexible materials, such as nylon and coated steel, enabling reeling from the centre out.

## 11 OPENING FOR HARD FISH TAPES

- This outer opening is used for harder, more rigid fish tapes in fibre glass or braided polyester, enabling reeling from the outside in.

## 12 MACHINED METAL SHAFT

- It ensures low friction and great durability.

## 13 CLIP FOR QUICK DISASSEMBLY WITHOUT THE NEED FOR TOOLS

- The head of the fish tape can easily be recovered if it goes inside by opening the reel up and passing it through the opening again.

# How is it used?

- ✓ **Hang it by its handle** on a hook, your belt or a door handle.
- Put it on the floor** and keep it in place with your foot. It is strong enough to withstand the weight and operate normally.

## YOUR HANDS ARE ALWAYS FREE

✓ **Its ergonomic design** allows you to grip it in the way that is easiest and most comfortable for you.

✓ **Fish tape head securing system.**

Designed to be equally comfortable for right-handed and left-handed users.

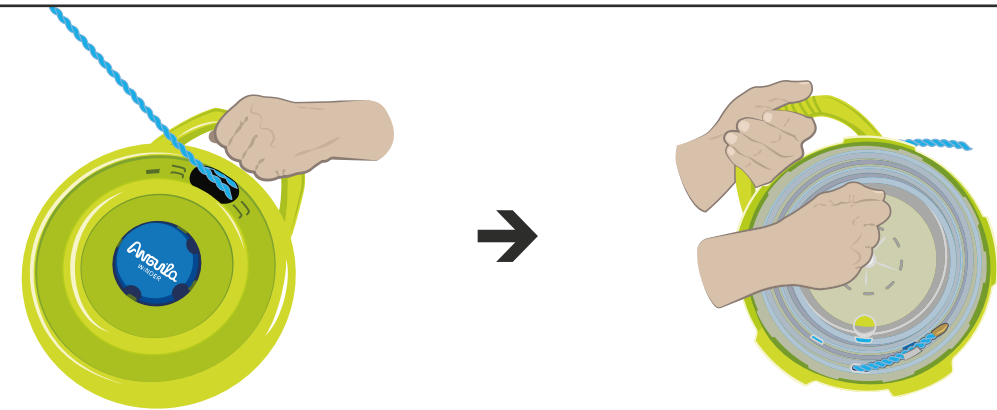

✓ **Inner opening for soft fish tapes and outer opening for hard fish tapes.**

Anguila Winder respects the natural form of the fish tape's material. To prevent any damage, this inner opening can be used for fish tapes in softer, more flexible materials, such as nylon and coated steel, enabling reeling from the centre out.

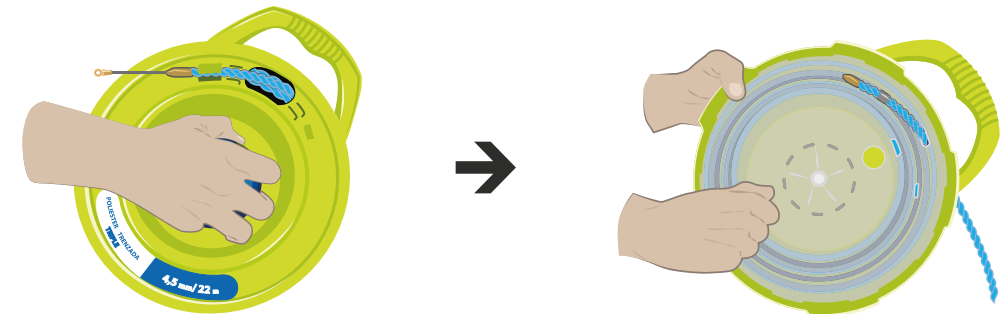

This outer opening is used for harder, more rigid fish tapes in fibre glass or braided polyester, enabling reeling from the outside in.

# REEL IT...

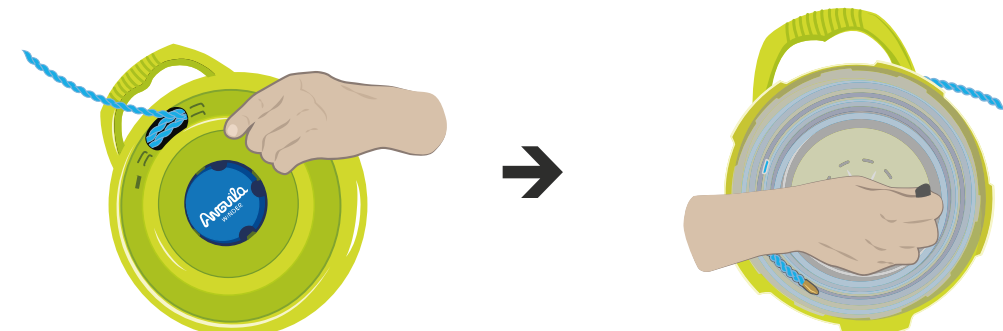

## 1 WITH THE HANDLE

## 2 WITH THE CENTRE

## 3 WITH THE SIDE

# How many are there?

As many as you want!
